

**National Active and Retired Federal Employees Association
Colorado Federation of Chapters
For Active and Retired Federal Employees**

Lee Beebe

District IV VP

I have not visited the Chapters but will do so in the next month or so. Had scheduled a visit earlier with Estes Valley but the weather decided otherwise. There's lots of activity around the holidays and I chose to take most of December and travel, therefore I postponed the visits until early 2010.

Presented the dues withholding program suggested by the Federation President utilizing the criteria provided by him, to the Chapters at the October meeting. Have been unable to meet with Estes Valley to provide them with the data but will do so at the January 20th meeting. Feedback from the Federation indicates a significant gain. There may be late signers and more will sign on later.

Longmont is hosting the 2010 State Convention. There has been some attendance by District IV to their planning sessions to prepare District IV to host the 2011 Convention. Loveland has volunteered as host Chapter and to date the other Chapters are in accord.

As of this report I do not have the final figures for membership but it seems to be holding its own. I'm unaware of any special signing of new members as a result of the Health Fairs, and since I haven't visited the Chapters since I don't have any numbers.

The latest numbers I have are the results of the contest and none of the Chapters in Dist. IV are listed so at least we aren't in contention.
